

6301302 PRESS N PRINT DYE KIT INSTRUCTIONS

Create many exciting designs with your stampers!

Color with stampers and brush onto white colored eggs.

Rinse stamper after every color change for best results.

Be sure hands are clean and dry. Skin oil can transfer to egg shell and cause colors to skip.

Colors may penetrate egg shell and cause a harmless tinting of the egg white but the eggs are safe to eat.

1. Use measuring spoon to moisten color pads with a few droplets of water.
2. Choose your design. Press stamp onto color pad and print onto egg.
3. Use brush to paint your own unique design!
