

EGG DECORATING INSTRUCTIONS

Preparation:

- Use cool hard-boiled eggs.
- Cover work area with newspaper or waxed paper.

For Tablets:

- Fill cups with 1/2 cup warm water.

For Liquid Dye Packets:

- Knead each packet of liquid dye thoroughly.
- Cut each packet along dotted line to form the easy-pour spout.

To Color Eggs:

- Place 1 tablet in 1/2 cup warm water and add 3 tbsp. vinegar, stir until dissolved. (For Pink and Purple tablet, use water only!)

Helpful Hints:

- Add 1 tbsp. of water to container. Drop tablet in water for color confirmation.
- Add vinegar to dyes. (NOT Pink and Purple - dye will dissolve quicker).
- Add remaining water to container.
- Bend egg dipper and place egg in container until desired shade is obtained.
- For brighter color, leave egg in container longer.
- Use egg dipper to remove colored egg.
- Drain well and set aside to dry. (For water color effect, eggs should remain damp to allow for the liquid dye to spread more easily.)

To Decorate Eggs: (Adult Supervision Required)

- Drip 1-2 drops of colored liquid dye onto damp white or colored egg.
- Using mini neon straw; gently blow through the straw onto the egg to spread liquid dye color and create water color effect.

See packaging for more decorating ideas.

Allow refrigerated, colored eggs to dry before handling.

Condensation may cause colors to smear.

Caution: Children must be supervised. Since this is a dye process, colors may stain some fabrics.
